Oceanic and
Atmospheric
Administration*

Dr. Rick Spinrad

Under Secretary of Commerce
for Oceans and Atmosphere

NOAA Administrator

NOAA at COP27

Opportunities: Current NOAA Budget Sources

\$345M

Disaster Relief Supplemental Appropriations Act, 2022

- Repair and Replace assets, facilities, and equipment damaged by hurricanes or wildfires
- Recovery efforts in mapping and charting, marine debris removal, coastal resilience, and fisheries disaster assistance
- Improvements to hurricane intensity and track forecasting, precipitation, flood and wildfire prediction and forecasting

\$6.8B

FY23 President's Budget

- **NOAA Program Change Summary Total: \$1.4B**
- Climate Products and Services
- Economic Development
- Equity and Workforce
- Satellites
- Facilities

\$2.96B

Bipartisan Infrastructure Law

- Habitat restoration, marine debris removal, and increased fish passage
- Flood and inundation mapping and forecasting and next generation water modeling
- Wildfire prediction, modeling, and forecasting
- Observing infrastructure for coastal, ocean, and Great Lakes, and wildfire
- Research supercomputing

\$3.3B

Inflation Reduction Act

- Climate services and climate ready coasts
- High performance computing capacity and research
- Planning and permitting
- Replacing aging facilities and construct new ones
- Hurricane Hunter aircraft

NOAA Priorities

Science, Service, and Stewardship

Climate

Establish that NOAA is the primary authoritative source for climate products and services that can be applied to a diverse range of missions, just as we are for weather.

Balance

Advance NOAA's complementary work on environmental stewardship and economic development with a particular focus on the New Blue Economy.

Equity

Exhibit equity in how we build and provide services. Within NOAA, we will promote diversity, equity, inclusion and accessibility in the workforce. Externally, we will provide equitable access to our products and services.

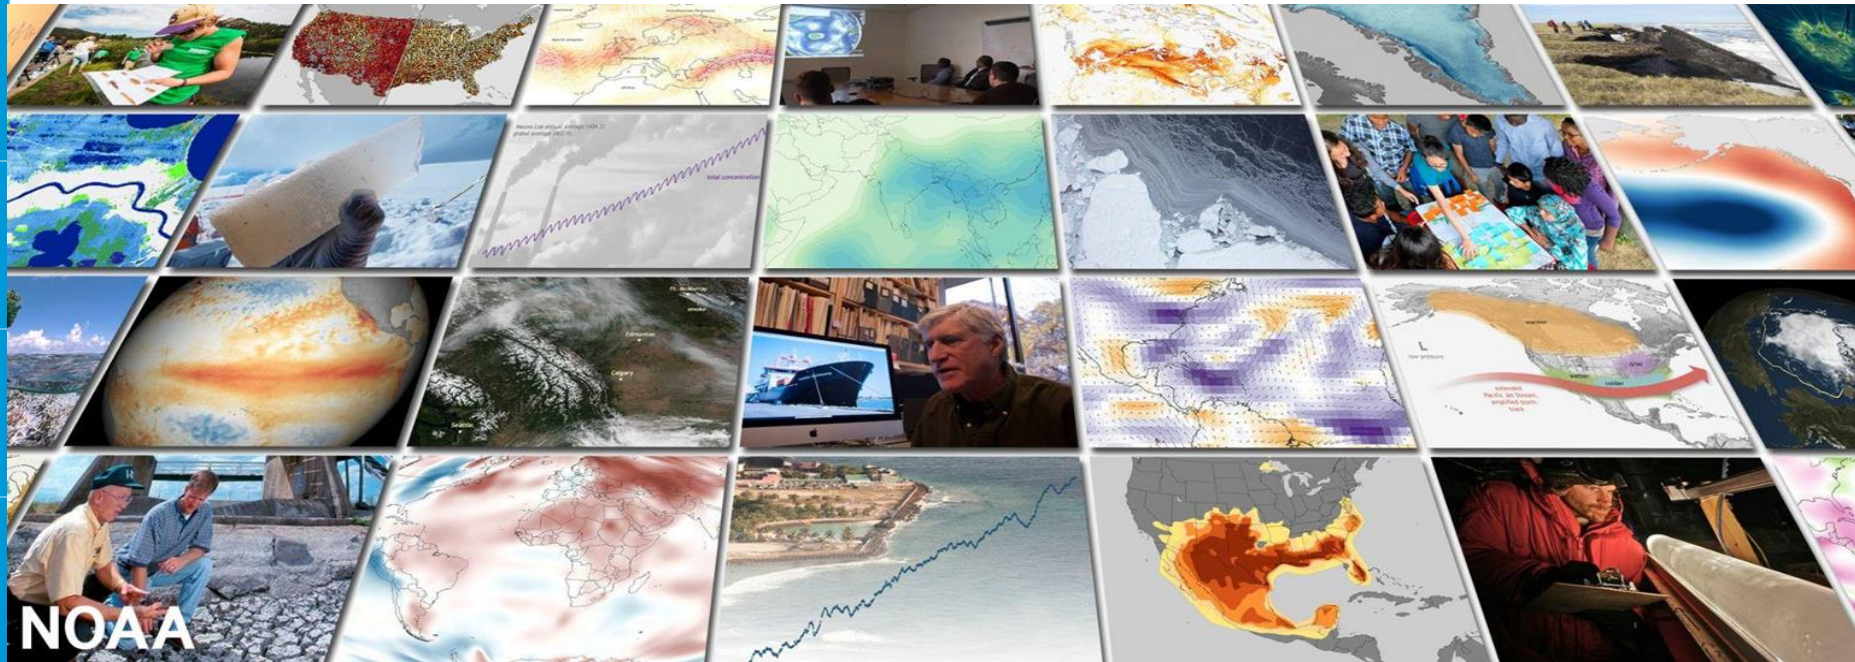

noaa.gov/our-mission-and-vision

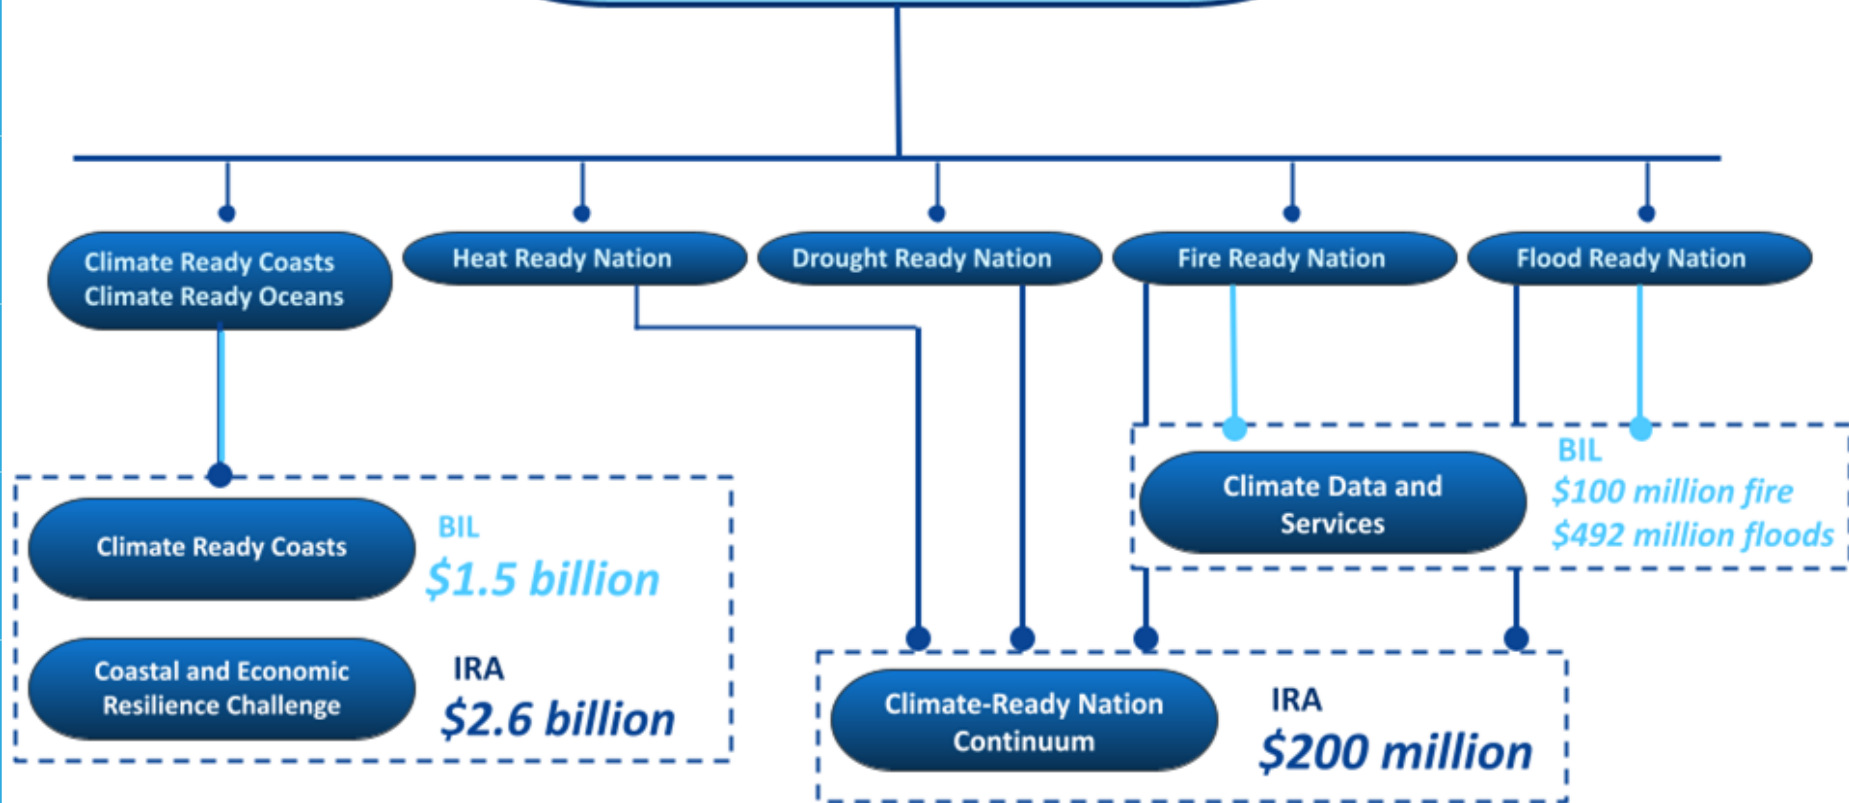

The New Blue Economy

A sustainable and equitable ocean and coastal economy that optimizes advances in science and technology to create value-added, data-driven economic opportunities and solutions to pressing societal needs.

Climate-Ready Nation

Challenges

- Offshore Wind
- Office of Space Commerce
- BIL/IRA
- Ships and Aircraft
- Satellite Buildout

Thank You!
